## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to because they were not approved by the draftsman (see Form PTO 948, mailed with the Office action of June 20, 2000). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 32-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Overlays on Deck" (Civil Engineering Magazine, September 1992, pages 42-45, article written by Paul Tarricone) in view of Jones (U.S. Patent 5,700,385). Note this rejection was discussed in detail in the Office action mailed July 30, 2003.

### ***Response to Arguments***

4. Applicant's arguments filed April 30, 2004 have been fully considered but they are not persuasive. Applicant states that Jones has no relation to the present method and is only hindsight, but does not discuss any reasons or provide examples to support this assertion. Without any evidence to support this assertion, the rejection is maintained.

In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on

Art Unit: 3671

obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971).

***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 703-305-4549. The examiner can normally be reached on Monday through Friday, 9am-6pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Will can be reached on 703-308-3870. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
